

**LISTE DES AERONEFS ULTRA-LEGRS MOTORISES AUTORISES EN BELGIQUE
(CLOTUREE LE 12 JUILLET 2022).**

**LIJST VAN ULTRALICHTE MOTORLUCHTVAARTUIGEN IN BELGIË TOEGELATEN
(AFGESLOTEN OP 12 JULI 2022).**

Il faut entendre par «appareil autorisé» un appareil pour lequel une autorisation de type a été émise et qui peut recevoir une autorisation restreinte de circulation aérienne.

Onder «toestel toegelaten» men moet verstaan een toestel voor welke een typetoelating werd uitgereikt en dat een beperkte toelating tot het luchtverkeer kan krijgen.

L'identification des postulants repose sur les déclarations introduites avec les demandes d'autorisation de type.

De identificatie van de aanvragers berust op de gegevens die bij de aanvragen om goedkeuring worden ingediend.

Pour diverses raisons, plus personne n'est habilité à délivrer le certificat de conformité requis par la réglementation belge pour les aéronefs dont la référence est rayée.

Un nouvel enregistrement n'est plus possible.

Les appareils enregistrés et autorisés restent autorisés.

Cette information repose sur les données disponibles à la DGTA et peut être incomplète.

Voor diverse redenen is niemand meer gerechtigd om het, door de Belgische regelgeving vereist gelijkvormigheidsattest, af te leveren, voor de toestellen waarvan de referentie is doorgehaald.

De geregistreerde en toegelaten toestellen blijven toegelaten.

Deze informatie berust op de gegevens waarover het DGLV beschikt, en kan onvolledig zijn.

Les autorisations de type des appareils identifiés sont temporairement suspendues suite à un défaut de conformité.

De typetoelatingen van de geïdentificeerde toestellen zijn tijdelijk opgeschort wegens gebrek van gelijkvormigheid.

Des autorisations de type ont été délivrées suite à des dossiers individuels.

Les appareils concernés ne sont pas reproductibles.

Typetoelatingen werden uitgegeven naar inleiding van individuele dossiers.

De betreffende toestellen zijn niet reproduceerbaar.
