<p>Declaration GGV 2016-07-Corr1-00</p>	

The undersigned, competent authority of the Kingdom of Belgium hereby declares that the portable tanks described hereafter may be used in Belgium on the conditions specified in this authorization.

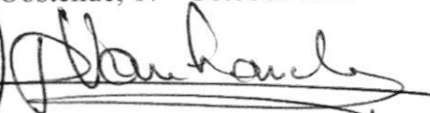

Tanks: Built by Van Hool, Belgium, manufacturer's serial numbers 17553-17602, in 2003 and 2004 having a test pressure of 4 bar and a minimum shell thickness of 4 mm (reduction of wall thickness as for a tank with a test pressure of less than 2.65 bar), certified by Lloyds Register on behalf of the Maritime Coastguard Agency of the Department of Transport of the United Kingdom of Great Britain and Northern Ireland.

Conditions of use:

- The maximum allowable working pressure shall be 1.75 bar instead of 2.67 bar;
- The tank shall be marked with T4;
- The representatives of the transport shall send to the Maritime Inspectorate, Ostend Bureau detailed report of any accident occurring during the loading or unloading of a vessel, the transport to and from the port area and the voyage;
- This declaration is valid for the lifetime of the tank and cannot be used for other tanks than the ones described above. Notwithstanding this, this administration reserves the right to withdraw this declaration at any time it considers necessary to do so and expires when any alteration is made on the tank.

Oostende, 17th October 2016

Ing. Patrick Van Lancker
