Declaration GGV 2017-04-25

According to section 7.9.1 of the IMDG code, the undersigned, competent authority of the Kingdom of Belgium, hereby declares that UN 3375, ammonium nitrate emulsion, class 5.1, pg II, may be transported in 20ft ISO TANK containers, RLTU 200105-7 and RLTU 200120-5, and 2 flow bins loaded inside a 20 ft ISO container, CWLU 316118-7, on seagoing vessels on the conditions specified hereafter:

- The 20ft ISO tank containers shall comply with the requirements of ISO 1496-3:1995 " Series 1 freight containers -- Specification and testing -- Part 3: Tank containers for liquids, gases and pressurized dry bulk ".
- The 20ft ISO container shall comply with the requirements of ISO 1496-1:1990 "Series 1 Freight containers - Specification and testing - Part 1: General cargo containers for general purposes"
- The flexible IBCs and the metal drums shall be stowed in such a way that they cannot shift, move or turn over in the container;
- The container shall only be unloaded at the final destination of the ammonium nitrate emulsion;
- All other relevant provisions of the IMDG code shall be complied with;
- A copy of the declaration shall accompany the transport documents;
- The representatives of the transport shall send to the Maritime Inspectorate, Antwerp Bureau detailed report of any accident occurring during the loading or unloading of a vessel, the transport to and from the port area and the voyage;
- This administration reserves the right to withdraw this declaration at any time it considers necessary to do so.

In any case this declaration will expire on the 31st December 2017, but can be subject to renewal.

Brussels, April 25th 2017

Hans De Veene, attaché
