

NOTICE TO OPERATORS 10/01

Subject: CIR/OPS-16, 4th edition, dated 16/09/2009

Description: It is specified on page 2, paragraph 3.2 of this circular, that the requirements of the fourth edition of CIR/OPS-16 are applicable from 1st December 2009. On this date, many company MEL's have not yet been revised to comply with its requirements, more specifically those specified in the paragraphs 5.4.6. and 5.7.2. Operators need to review all their company MEL's and, if applicable, revise them accordingly. For your info, at least all those MEL's, which have been approved before the 1st December 2009, do not comply with the requirement of the 4th edition of the BCAA CIR/OPS-16. You are requested to transmit as soon as possible to the BCAA the revision proposal for each affected MEL. In case of difficulty to comply rapidly with this request you may contact your BCAA coordinator in order to establish with him a planning satisfactory for both parties.
