DECLARATION GGV 1994-16-19

According to 5.4.2.1 of the International Maritime Dangerous Goods Code, the undersigned competent authority of the Kingdom of Belgium hereby declares that PVS Chemicals Belgium N.V., Gent may transport 200 l and 150 l aluminium drums with two rolling hoops and the opening central in the body (see test report 51/TUN/1157 and 51/TUN/1439 of Pira), filled with **chlorosulphonic acid**, class 8, UN 1754, lying down in a cargo transport unit on the conditions specified hereafter:

- 2 drums, lying down, are strapped on a pallet, with the opening in the highest position;
- maximum 2 pallets with the same composition may be stowed on it;
- the cargo shall be packed into the cargo transport unit according to the "IMO/ILO Guidelines for Packing Cargo in freight containers or vehicles";
- the pallets with the strapped drums on it shall be properly packed and secured into the cargo transport unit;
- all relevant provisions of the IMDG-code shall be complied with;
- the representatives of the transport shall send to the Scheepvaartcontrole, Oostende Bureau, detailed report of any accident occurring during the loading of a vessel, the transport to and from or the storage in the port area and during the voyage;
- this administration reserves the right to withdraw this permission at any time when it considers necessary to do so.

In any case this declaration will expire on the 31st of March 2017 but can be subject to renewal.

Gavere-Asper, 16th of March 2016

ing. P. VAN LANCKER, attaché
